JUICENET ENTERPRISE

Commercial Charging Stations

Powerful & flexible smart grid EV charging software at an affordable price

Our advanced EVSE asset management platform, JuiceNet Enterprise delivers the financial savings and flexibility you need to efficiently manage your EV charging operations at a single property or across a portfolio of locations. It's the perfect solution for condominiums, apartment buildings, offices, shopping malls, universities, event venues, garages, and more.

Whether your system is just getting started or you're already powering an entire fleet of vehicles, JuiceNet Enterprise is designed to help you:

- Monitor and control your system with a powerful online dashboard
- Reduce energy costs by controlling charging times and managing demand charges
- Generate new revenue from your charging stations with flexible payment options
- Provide authorized drivers an easy way to charge with our intuitive driver app (iOS & Android)
- Optimize charging times and aggregate stations to reduce energy costs using industry-leading open smart grid standards

Why JuiceNet Enterprise?

Control Station Access Set charging times and allow authorized users to access charging	**Balance Your EV Load** Expand your charging operations without expensive infrastructure upgrades	**Save on Charging Expenses** Cap overall electricity consumption and manage demand charges
Generate Revenue Collect payment through mobile app or create invoices from reports	**See System Health** A powerful dashboard and robust reporting let you monitor charging stations and driver activity	**Make Charging Easy** Simple app for drivers to control and monitor their charging

JuiceNet Enterprise Administrator Features

Charging Station Management
> Assign devices and settings to locations and sublocations

Control Charging Time
> Set charging station hours of operation
> Set separate availability schedules for weekdays and weekends

Access Control
> Grant charging station access to authorized users and manage access at location level

Reports
> Daily and monthly consumption reports by user, charging station, location, company
> Review active charging sessions
> Run session history reports by station and user
> Review real-time consumption for each location
> Export reports in PDF, XLSX, CSV

Pricing and Payments
> Set pricing by kWh, session, hour or any combination thereof
> Payment collection in app
> Generate usage report & export data for invoicing

Administrator Dashboard Access
> Grant users access to specific locations and devices
> Administrator access level control

Reseller Dashboard and Whitelabeling
> Resellers can manage stations on behalf of their customers
> Brand dashboard with any company logo and email
> Create a unique company URL (e.g. https:// company. juice.net) for each end customer

Automated Load Balancing
> Limit maximum power load for each location or group of charging stations
> Monitor current load
> Review maximum load per location and per day

OpenADR 2.0b Compliant
> Compliant with smart grid standard used for Automated Demand Response programs

Troubleshooting Tools
> Review state of the charging station: status, temperature, voltage, kW, amperage
> View logs and events for each charging station

Driver Features

- Start charging using mobile app
- Review current session status
- Review history and cost of sessions
- Charging start and stop notifications
- App available for iOS and Android
