

JuiceBox[®] 48

Residential Charging Stations

Charge faster at home with the high-power JuiceBox 48

JuiceBox 48 is a smart home charging station with a high maximum power output for drivers whose cars accept higher power levels, such as many Tesla models.* The JuiceBox 48 packs 11.5 kilowatts, and automatically adjusts to an EV's accepted power level for safe, convenient home charging. JuiceBox provides easy, reliable and cost-effective charging to thousands of satisfied EV drivers and is the only line of charging stations that affords both direct user control and smart grid optimization through our software platform, JuiceNet[®].

- Charge your vehicle faster with 11.5 kW maximum power output
- Control charging anywhere, anytime via our mobile app and web portal
- Reduce your energy costs by scheduling charging when rates are low
- Select a cleaner electricity mix to reduce your emissions (in applicable geographies)
- Participate in smart grid programs to further lower the cost of owning and driving your EV (in applicable geographies)
